Clavister Security Gateway 50 Series

The Clavister Security Gateway 50 Series is a set of turn-key, hardware based, security products designed for small and medium sized enterprises or similar organisations with equal needs and demands.

The 50 Series is based on the same award winning technology as all Clavister products which in other words means extreme security, high performance and a versatile set of functionality.

Versatile Security Solutions

All Clavister products are built to provide supreme and high-performing security at an unparalleled price / performance ratio.

With a rich set of functionality such as Bandwidth Management, Office-to-Office VPN, User Authentication, High-Availability, Deep Inspection with Intrusion Detection and Prevention, Layer 7 Application Recognition, Content Filtering, Virtual Systems, Virtual Routers and dynamic routing capabilities, we do not only see our products as gateways in complex networks but also as business platforms that grow with your needs.

We will not let a product failure ruin your business

You are well aware of that the health of your network is mission-critical. You are also well aware of that redundant backup security solutions are usually designed for large enterprises with a matching price tag.

We at Clavister realized that even the smallest of networks is mission-critical, for its users. That 's why we never hesitated to include High Availability backup support with interface failover functionality in the Clavister Security Gateway 50 Series.

Product Highlights

Modularity as no two networks are alike

With the 50 series you can set security policies any way you want - from having a specific, detailed policy for every single user in your organisation to filtering by application, credentials, time of day or any one of a hundred other variables.

Clavister CorePlus™ kernel

At the heart of the 50 Series, just as all Clavister SSP products, lies an in-house developed, high-performance kernel with an invisible attack surface and air-tight component integration. We write every line of code ourselves to ensure that it all works perfectly together at staggeringly high performance levels.

This stands in direct contrast to most security products on the market which piece solutions together from several different sources.

Big on Performance - Low on maintenance

With the 50 Series, just as with all other Clavister products, there are no time-consuming upgrades and service pack installations to be done (as is common with many other vendors). Any upgrades that are required (to handle newly emerging threats, for example) are provided by the Clavister Service Provisioning Network (CSPN).

Based on Clavister Service Oriented Security (SOS)™

Our goal is to allow customers the benefit of granularity and provide the greatest freedom to configure and optimize their security solution to exactly meet their specific needs. Our SOS design philosophy means that, where possible, we avoid integrating third-party code.

Feature list	51	53	55	57
System Performance and Capacity				
Plaintext Throughput (Mbps)	50	75	100	200
AES/3DES Throughput (Mbps)	20/20	20/20	40/40	40/40
Concurrent Connections	4.000	8.000	16.000	32.000
Concurrent VPN Tunnels	25	50	100	200
Ethernet Interfaces	3x100BASE-TX + 7x100BASE-TX			
Virtual Interfaces (VLAN)	4	8	32	64
Virtual Systems	5	5	5	5
Virtual Routers	5	5	5	5

Feature list	50 Series
Mode of Operation	
Layer 2 mode (transparent mode)	Yes
Layer 3 mode (route mode)	Yes
Policy-based NAT/PAT	Yes
Policy-based Server Load Balancing	Yes
Virtual IP	Yes
Firewall	
Network Attack Detection/Prevention	Yes
DoS and DDoS Detection/Prevention	Yes
TCP Reassembly	Yes
VPN – Virtual Private Networking	
Encryption	AES, 3DES, DES, Blowfish, CAST-128
Authentication	SHA-1, MD5
IKE Modes	Main, Aggressive
Perfect Forward Secrecy (DH Groups)	1,2,5
X.509 Certificates, Pre-Shared Keys	Yes
PKI Certificate Requests	PKCS#7, PKCS#11
Self-Signed Certificates	Yes
IPSec NAT Traversal (NAT-T)	Yes
VPN Policy Selection Through	Firewall Ruleset, Routing, PBR
VPN Tunnel Keep-alive	Yes
L2TP Client / Server (LNS)	Yes
PPTP Client / Server (PNS)	Yes
Intrusion Detection and Prevention	
Stateful Pattern Matching	Yes
Protocol Anomaly	Yes
Rate Anomaly	Yes
Insertion/Evasion Protection	Yes
Dynamic IP Blacklisting	Yes
Automated Signature Updates	Yes
Stateful Signatures	Yes
Component Based Signatures	Yes
Application Blocking	Yes
Content Security	
Web Content Filtering	Yes
Audit Mode	Yes
Blocking Mode	Yes
Classification Categories	> 30
URL White/Black Listing	Yes
Antivirus *	Yes
Stream-based Signatures	Yes
Automated Signature Updates	Yes
Per Device Signature Service	Yes
High Availability **	
Firewall and VPN state Synchronization	Yes
Device Failure Detection	Yes
Dead Link, Gateway and Interface Detection	Yes
Interface Failover	Yes
Route Failover	Yes
Average Failover time	< 800 ms

Feature list	50 Series
Routing	
Static Routing	Yes
Policy-based Routing (PBR)	Yes
OSPF / OSPF over VPN	Yes
Multicast - IGMP	Yes
Source Base Routing	Yes
GRE	Yes
IP Address Assignment	
Static	Yes
DHCP Client, Server and Relay	Yes
Proxy ARP	Yes
PPPoE	Yes
Application Layer Gateways	
FTP	Yes
H.323	Yes
NAT and SAT support	Yes
HTTP	Yes
SMTP *	Yes
Bandwidth Management	
Policy-based Bandwidth Management	Yes
Guaranteed / Maximum Bandwidth	Yes
Dynamic Bandwidth Balancing	Yes
Priority Levels	Yes
Logging / Monitoring	
Clavister Firewall Logger	Yes
Syslog	Yes
Real-time Log Viewer	Yes
Command Line Log Query Tools	Microsoft Windows, Linux
Log Export Format	CSV
Real-time Performance Monitoring	Yes
SNMP Polling/Traps	Yes
Management	
Local Console	RS232
Command-line based Remote Management	Microsoft Windows, Linux
Graphical Enterprise Remote Management	Included in all products
Multi-Device Management	Yes
Remote Fail-safe Operation	Yes
Revision History	Complete Configurations
User Authentication	
External RADIUS User Database	Yes, multiple servers
RADIUS Accounting	Yes
CHAP, PAP	Yes
Web-based Authentication	Yes
Customizable HTTP(s) Front-end	Yes
XAuth VPN Authentication	Yes
Dimensions and Weight	
H x W x D (mm)	35x260x190
Weight	1,2 kg
Form Factor	Desktop
Power Supply (AC)	100-240V 50 to 60 Hz AC
Regulatory and Safety Standards	
Safety: UL	
EMC: FCC class A, CE class A	
Environmental	
Humidity: 20% to 95% noncondensing	
Operational Temperature: 0 to 55 C	
Vibration: 0.41 Grms2 (3-500 Hz)	
Shock: 30 G	

* Release schedule to be announced

** High Availability clustering only available in the Clavister Security Gateway 57

Warranty

All products in the Clavister Security Gateway 50 Series come with a two (2) year standard RMA warranty and 90 days Software Subscription covering all major and minor software releases counting from the Start Date.

Start Date means the earlier of Product registration or ninety (90) days following shipment from Clavister.
